Phone : +55 11 95884-3078

## Summary

Senior full stack developer with a strong foundation in **TypeScript, Python and Go**. Experienced in RESTful APIs, automation, **web scraping**, integrations with **AI/LLM** models, internal interfaces and *data-driven* platforms at scale (millions of devices/users). Translates business problems into simple, scalable and functional technical solutions, with a continuous improvement and collaboration mindset.

## Education

- **Universidade Presbiteriana Mackenzie** São Paulo, Brazil  
*Bachelor of Information Systems; In Progress* 2023 – 2027
- **ETEC Basílides de Godoy** São Paulo, Brazil  
*Technical Diploma in Systems Development; Graduated* 2021 – 2022

## Experience

- **Painel TAP** São Paulo, Brazil  
*Senior Full Stack Developer* Mar 2025 – Present
  - **Full-Stack Web Development:** Full-stack development of a SaaS platform with Python and Node, exposing RESTful APIs, internal interfaces and *data-driven* dashboards. Automation, web scraping and integrations with AI/LLM models, focused on architecture, performance and scalability.
- **Allcom Telecom** São Paulo, Brazil  
*Mid-level Full Stack Developer* Jun 2024 – Mar 2025
  - **Large-Scale IoT Platform (4M+ devices, 8,000+ clients):** Worked on products of the largest IoT operator in Latin America, with strategic partners such as **Claro, Vivo, Qualcomm and Nokia**. Full-stack web development with Next.js, Node, React, Laravel, Python, Docker and relational databases. RESTful APIs, automation, web scraping and internal interfaces for payment methods (POS), smart cities, utilities, telemetry and fleet segments.
- **Origin9** São Paulo, Brazil  
*Mid-level Full Stack Developer* Dec 2023 – Jun 2024
  - **Full-Stack Web Development:** Front and back-end web development with Node, Python, React and Docker. RESTful APIs, automation, web scraping and relational databases under agile methodologies.
- **YOUDevelop** São Paulo, Brazil  
*Mid-level Full Stack Developer* Oct 2021 – Dec 2023
  - **Full-Stack Web Development:** Front and back-end web development with Next, React, Firebase and Supabase. Building RESTful APIs, data integrations and continuous delivery in agile methodologies.
- **Morph** São Paulo, Brazil  
*Full Stack Web & Mobile Engineer* Dec 2021 – Jun 2022
  - **Mobile Development:** Agile development in Flutter for Web and Mobile applications.
- **Zyndicate** São Paulo, Brazil  
*Full Stack Engineer* Dec 2020 – Dec 2021
  - **Web Development:** Web development using GitHub Flow, ReactJS, NextJS, GraphQL, UI/UX, CI/CD, agile methodologies and English communication.
- **Nooio** São Paulo, Brazil  
*Backend Developer* Dec 2020 – May 2021
  - **Automation, Scraping & APIs:** Development of RESTful APIs with Node/Express and Python scripts for automation and web scraping. Test-Driven Development (TDD) and deployment on AWS.

## Courses

- **Go Programming Language – Aprenda Go (Ellen Körbes):** Data structures, interfaces and polymorphism, concurrency and parallelism, error handling, testing and benchmarks. 2020 – 22h.
- **Python 3 Course – Curso em Vídeo (Gustavo Guanabara):** Solid language fundamentals, from variables to error handling. 2020 – 120h.
- **Backend Developer Course – Digital Innovation One:** Systems Architecture, Java, Spring Boot, testing, SQL, Node.js with Express, API best practices and LGPD. 2020 – 100h.

## Certifications

---

- **Docker: Creating and Managing Containers:** Fundamentals of containers, images, volumes and orchestration with Docker.
- **Backend Developer Bootcamp – Carrefour:** Intensive backend development program focused on Java, Spring Boot and industry best practices.
- **Back-end Development with Node.js:** Building APIs and services with Node.js and Express.
- **Advanced JavaScript ES6 Development:** Modern JavaScript features (ES6+), patterns and best practices.
- **Expert Lesson: Introduction to LGPD:** Principles of the Brazilian General Data Protection Law (LGPD) and impacts on software development.

## Honors & Awards

---

- **OBI Finalist (Brazilian Informatics Olympiad):** Qualified for the final stage of the national algorithms and programming competition.
- **Top Student of the Systems Development Program:** Recognized as the top student of the technical Systems Development class – ETEC Basíliades de Godoy.

## Skills

---

- **Programming Languages:** Python, Go, Node.js, TypeScript, JavaScript (ES6+), Java, Dart, Arduino
- **Data, AI & Scraping:** Grafana, Pandas, BeautifulSoup, Scrapy, LLMs / Applied AI, Data Visualization, relational databases (SQL), Firebase, Supabase
- **Web & APIs:** RESTful APIs, GraphQL, Next.js, React, Express, Laravel, Flutter, UI/UX, Digital Accessibility
- **Infra & Cloud:** AWS, Docker, CI/CD, Git/GitHub, Systems Architecture
- **Practices:** TDD, Automation, Agile Methodologies (SCRUM), LGPD
- **Languages:** Portuguese (native), English (advanced – Full Professional)
